## PROMOTE EXPORT OF ONTARIO FRUIT

Special Committee to Study Cold Storage Facilities Can Ship Tomatoes—Crop Can Be Marketed in England if Properly Handled—Export Trade Big Boom to Fruit Growers.

Investigation of cold storage and transportation facilities with a view to promoting the export of Ontario fruit will be undertaken by the special committee of the Ontario Legislature that had its commission renewed last season. The committee at a meeting in the Parliament Building, Toronto, on Thursday decided to divide into two sub-committees to study cold storage facilities in Eastern Ontario and the other facilities in the western part of the province. For the east the committee is Messrs. Bragg, Cook and Blais, and for the west, Messrs. Preston, Sheppard and Macdonald.

The committee is to meet again in two weeks and at that time will probably arrange to meet President Hanna of the Canadian National Railway in order to discuss means of securing shipping facilities. The committee also has under consideration a suggestion that test shipments be made this season to gather definite data upon the conditions under which Canadian fruit is handled and marketed, with a view to making recommendations as to needed improvements.

Mr. Preston met the committee Thursday and gave the members a good deal of valuable information in regard to the export market for Ontario fruit. The former trade commissioner told the members that no matter whether the fruit crop in England was great or small, there was always a large market for Ontario apples, pears, peaches, etc. He also emphasized the opportunity for developing a profitable export business in tomatoes. The home-grown greenhouse tomatoes were small and of inferior quality and Ontario tomatoes were of a much better quality. The shipment of tomatoes from the United States to England was a big business and the Ontario tomatoes were well adapted to the market.

## LAKEVIEW GARDENS AN IDEAL SPOT FOR LOVELY HOMES

Lakeview gardens, GRIMSBY, is attracting the attention of lovers of suburban property, this month many sales having been recorded by George E. Armstrong, the reliable realty expert, Main and Hughes Streets, Hamilton. The country home with all city advantages appeals to the professional and business man, the banker and broker, and this survey overlooking Lake Ontario is rapidly being taken up. The lots are quite large and the owner has a good chance to develop garden pursuits in leisure time. The property was formerly the old race track and its ideal situation makes it a safe proposition to the careful investor. The bungalow is a favorite type of building with the present owners, and it is surprising to notice how roominess and convenience have been worked out in the construction. Intending buyers will be wise to view the plans at Mr. Armstrong's office or view Lakeview property, which is in the town of GRIMSBY. Lots are selling at opening prices.

## BORN

SHANNON—In Dundas, on Tuesday, May 17th, to Mr. and Mrs. George R. Shannon, a son.

## MRS. S. E. REVELIE, B.A.

Of Kingston, Ontario, who entered Queen's University while her husband and two sons were fighting with the Canadian army. She had just completed her course and received a B. A. degree.

## LOCAL PASTORSSIDE OF KIDNAPPING

Rev. Mr. Shepperson, of Beamsville, Gives His Version of Origination of Church Trouble at Palmerston—Was Not Responsible for Woman's Dismissal From Methodist Church Choir.

Much interest was aroused last week by the sensational kidnapping case which occurred at Palmerston, when Miss Lee the well known choir leader and singer was supposedly abducted by an automobile party, bound, gagged and left in a lane leading up to a farm house. From reports that have come out of the Western Ontario towns, the whole case appears to be one of jealousy between the choir and members of the Methodist and Presbyterian churches in that town. A dispatch from Beamsville, agent this case will be of interest to our readers:

Beamsville, May 21.—To Rev. Mr. Shepperson, who was the Methodist minister in Palmerston three years ago at the time of the quarrel which led to Miss Lee's dismissal as organist, the startling attack against her seems to be the work of somebody with a "demented mind."

What Pastor Says Although it was the choir trouble stirred up in the factional feud in the Methodist church that caused Mr. Shepperson to leave his charge a year after his installation as pastor at Palmerston, still he says he bears no ill will against Miss Lee.

"I was not dismissed," he says. "I had to leave because my health would not stand the constant quarrelling there. Palmerston is noted for its church quarrels."

"I know nothing about the present trouble."

Did Not Dismiss Miss Lee "It is wrong to say, as the reports do, that I dismissed Miss Lee," stated Mr. Shepperson. "An pastor I was simply head of the board. I pleaded one night half past eleven with them not to take such action, but to retain her at least for the year she had been hired."

"In our candid opinion,"—here the pastor was borne out by his wife,—"Miss Lee is a fine person. Her dismissal was a well qualified in every way as an organist and choir leader. The whole trouble started when she put in a local organist instead of playing herself. She had been hired by the board to be organist as well as choir leader, and they thought she ought to have played the organ herself."

Not Choir Rivalry "Why did she do that?" he was asked.

Mr. Shepperson's reply was that while Miss Lee was a fine organist, she was too nervous and fazed the playing a greater strain than she could bear. She was not a person, could bear. She was not a person, could bear. She was not a person, could bear.

Editor Independent.

Grimsby, May 25, 1931.

Sir:—

Although my protest may not count for much, I do hope our Town fathers will go slow and not be led into any wild and ill-considered scheme of "water-works" extension. Councillors should be held responsible for the way they handle public affairs. Even the Township ratepayers are the led astray by irresponsible enthusiasts and boosters. The people who live on the side of the road on which the main pipe line runs will be the ones chiefly benefited. Those on the other side can at their own expense do the digging across the main road, in addition to their share of the whole cost of the work.

The ratepayer has to pay the sixty per cent. and also the forty per cent. of the cost. Who also will pay it? There seems to be a threatened epidemic of extravagant expenditures. Can we trust our councillors or are we to be again stampeded into more ill-considered and ruinous schemes? "Make haste slowly" is a good maxim.

H. A. Alexander.

## GO-TO-SUNDAY-SCHOOL-DAY

Next Sunday is the day when all Canadians, old and young—are expected to attend some Sunday school. All evangelical churches unite in the same program for the day and it is a special program arranged for that day—Any of the churches in GRIMSBY will be glad to welcome you.

This map shows the Ruhr Valley, which would have been invaded had not Germany complied with the allied demands, and which still may be invaded should Germany fail to live up to her agreement. —From the New York "Evening Post."

## IN RECENT YEARS GEORGIAN BAY FRUIT TREES HAVE BEEN HIT HARD BY FROSTS

There is no part of Ontario in which apples and plums attain a higher degree in quality than they do in the northeast corner of Grey county in the sheltered valleys reaching down to Georgian Bay. There the Spy, in particular, reaches its highest standard in excellence. But apples and plums do not mark the limits in possible fruit production in that section.

"When, 37 years ago, I first visited the finest Apples I have ever seen," said Mr. A. Gifford. "They were as large as my fist (and the speaker has not small fist) and of magnificent quality. Peaches have been grown there more or less ever since." Mr. Gifford continued, "but most of the trees were destroyed in the severe winter of three years ago."

## A Natural Orchard Area

There are few areas in Ontario, of similar extent, where so many apple orchards, running from four or five to upwards of 30 acres, are to be found as may be seen in this corner of Grey. These orchards have, however, suffered greatly in the last six years, partly from unavoidable neglect and partly from the severe winter of three years ago. That winter destroyed about 15 per cent. of the trees, and everywhere there is evidence of neglect of cultivation and of pruning. This latter is the unavoidable result of labor shortage in the last few years.

## One Typical Case

How great this labor shortage has been is indicated by the case of one farmer, Mr. H. E. Gifford, who lives on the old homestead cleared out of the bush over half a century ago. That farm of one hundred acres practically all under cultivation, was of necessity handled by Mr. Gifford, practically unaided during the past year, save at apple-picking time. The owner, with such help as his father, now past fourscore, was able to give, housed up loads of hay in the past season. It is true that mechanical conveniences, added by the exceptionally favorable situation of the farm, made the work of handling comparatively easy. A low wagon was used, on which Mr. Gifford was able to do both pitching and loading. The barn, a three-story affair, is placed at the side of a steep hill. The gangway leads on to the second floor, and in unloading it is a case of dumping down instead of pitching up. On driving on to the second floor Mr. Gifford hooked a block-and-tackle to the wagon rack, hitched his horses to the rope and turned the load over into the mow below, the whole operation of unloading being done in five minutes.

## Wholesale Waste of Apples

But all farmers in St. Vincent have not Mr. Gifford's physical strength and mechanical conveniences, and in many cases labor short-go resulted in distressing loss. I was this week shown a really excellent orchard of about four acres, just outside of Menford, from which the only apples picked last year were those for the owner's own use. A still worse case was that of an orchard of 20 to 25 acres, mostly Spy. This is owned by a man no longer capable of hard physical labor. Despite the fact that the orchard has not been pruned for years, the trees yielded abundantly last year—from a thousand to fifteen hundred barrels. But again the only picking was for the use of the owner. All the rest of that magnificent fruit rot on the ground.

## Why Labor Is Still Scarce

This year the situation is somewhat better. There is more evidence of pruning and cultivation than has been seen for six years past, but the labor situation on the farm is still acute and will remain so as long as men can, as now, get 30 cents an hour on county and provincial road work. With prices of farm products more than cut in half, farmers simply cannot meet that sort of competition.

## Nature Doing Her Share

This year nature is doing all that could be asked of her for the townspeople and Clarkburg. The bloom on the orchards was abundant and, unlike this week's frost has caused damage, there will be a good fruit crop. Spring grain has gone into the land under most favorable conditions. Unlike the neighboring counties of Simcoe, where there has been extensive killing of fall wheat, this crop promises exceedingly well in the northeast corner of Grey, and pictures, sweet clover and alfalfa have all made an excellent start.

## BOARD OF HEALTH

The Milk Question Grimsby, Ont., May 20, 1931.

Editor Independent. Sir:—In justice to the milk dealers and the farmers who supply them, it is only fair to give them credit for their efforts to supply a good article. The cattle and the stables and their surroundings and water source have all been inspected by members of the "Board of Health". Their report is favorable. The farmers have most up-to-date stables, and their cows are high grade and often prize stock. They are trying to weed out the "inferior milkers". It is a well known fact that cows vary in the richness of their milk, and that is a reason why farmers should keep a record of their "butter fat" production of their individual cows and get rid of the poor ones. On the average, I think, we are getting fairly good milk. Sanitary precautions are being observed by all concerned. The best of milk may spoil after the consumers receive it, if they are negligent and do not keep it in a cool place. The price of milk will soon be 18 cents a quart. Drink more milk.

R. A. ALEXANDER, M. O. H.

## GOOD SHIPMENTS

Drysdale Carpenter, sales manager of the Niagara Peninsula Growers' Limited, is more than pleased with the success attending the shipments of rhubarb and asparagus to the maritime provinces, and also to the west. The third carload lot was sent out Wednesday morning. Word received that day from Winnipeg was to the effect that both the consignees and government officials were highly pleased with the condition of the produce. It is expected that a large market will develop as a result of the efforts of the new company to spread the produce over a greater area.

## S. P. C. B. HAS CASE FOR INVESTIGATION

Percival Finkle, Grimsby Beach, Pulls Stunt That Jars Entomological Society—Likewise is the Cause of Dissolution of Old Time Friendship Between Sheets and Pillow Slips.

Horrible crimes were committed at GRIMSBY Beach on Friday of last week. Death and destruction ran rampant. Lives were cast into the discard in utter abandon. Volcanoes, earthquakes, floods, tornadoes, railway wrecks, ship wrecks and wars all combined could not have caused half as much destruction in the same space of time.

Percy Finkle, the rotund, ruddy faced, curly headed dancing master was the cause of it. Percy went on a rampage and as a consequence \$5,000.00 living creatures gave up their lives to the cause of cleanliness and sanitation.

Percy is now Mine Host of the Park House at the Beach and has a big staff at work cleaning the old hotel from the ground to the roof. In his clean-up paint-up campaign he decided to do away with a lot of the old mattresses that have done duty in this hotel for several blue moons, hence the great loss of life. Figuring that the only way to make sure that the mattresses would be done away with forever he burned them.

Shirts, bed spreads, pillow slips, towels, table cloths, napkins and other linen by the hundreds of pieces were also put through the cleaning process. In order to make this linen absolutely clean and to do the work in the shortest space of time "Finkle" perused the columns of The INDEPENDENT and then hid him away to the store of "Jimmy" Bird where he secured one of the famous Thor washing machines and ironers, and set it up in the Park House and started his crew to work. In a space of time that seems almost incredible the machines washed and ironed the linen in excellent style and thus relieved "Finkle" of many hard days toil over the wash tub and ironing board. That in itself was a great relief to "Finkle" because he liked work so well that he can lie right down and sleep beside it.

We are glad that the old Park House has been given a new lease of life and we can never forgive "Finkle" for taking so many lives in one day.

## SELAN—WE HAVE SPOKEN

"Orilla" has it in the ring. The Packet of that town says: "The Signal claims that Goderich is better than ninety per cent of Ontario towns, and doubtless it is. The four prettiest towns in the Province are: first, Orilla; second, Barrie; third, Goderich; and fourth, Brockville." Now listen!—Toronto Globe editorial note.

Yep! We are talking and if you listen you will hear a short story of how those people have perverted minds.

But what's the use? We will admit that when conditions are right all of these towns are fair to look upon but in GRIMSBY and the GRIMSBY DISTRICT we have heard it epitomized. We do not spread it out. We do not need to because every square foot is a picture. A picture that has impressed itself on the minds of thousands of travelers that have carried the reputation of GRIMSBY to the four corners of the globe.

The Globe says: "Now listen." Selah! We have spoken.

## Obituary

### EDWARD S. SIFTON

Edward S. Sifton, a brother of Frank Sifton, manager of the Lincoln County Industrial Home, died suddenly at his home in Rapid River, Michigan, on Saturday, May 14, 1931. Mr. Sifton was born in the County of Middlesex in 1861 a son of Robert Sifton, a pioneer of that district. Several years ago he went into Michigan and engaged in business there. His death marks the first break in a family of seven boys and one girl, who, surviving to mourn his demise were W. C. Sifton of Orford, J. T. of Romea, Michigan, B. E. of Wallace, J. J. of Dutton, H. F. of Highgate, Frank, manager of the Industrial Home at St. Catharines, and Mrs. J. S. Pearce of Wallacetown. The body was brought to Grimsby and interment took place at Tyronnall on Friday, May 20, the pallbearers being his six brothers.

## IN MEMORIAM

WOODS—In loving memory of our dear friend Florence, wife of T. W. Woods, who died May 24th, 1930. You are not forgotten, Florence dear. Nor will you ever be. As long as life and memory last we will remember thee. Not one day forgotten by Mr. and Mrs. A. E. Worthing.

## BORN

GILBERT—In GRIMSBY, on Wednesday, May 23, 1931, to Mr. and Mrs. E. P. Gilbert, a son.

## FROST HIT STRAW-BERRIES HARDEST

Some of the English Varieties Were Pretty Well Out in Blossom When Last Week's Cold Snap Came—Sweet Cherries Damaged—Buds on Lower Portion of Grape Vines Nipped.

Strawberries seemed to have been the hardest hit by the visit of the late frosts, the first part of last week. Reports from all points would indicate that at least fifteen per cent of the crop has been injured. What few sour cherries survived the frosts of a month ago were wiped out by last week's low temperature, until now it is safe to say there will be mighty few sour cherries picked anywhere in the Niagara district. This last visit of Jack Frost has also injured the sweet cherries in some places as high as forty per cent, and in other places the loss will not be over ten per cent.

Grapes were again given a bad set back, but it is a question yet whether they were hurt enough to stop them cropping, so far it is only the buds on the lower parts of the vines near the ground that are reported injured.

E. F. Palmer of the Vineland Experimental Station, reports that it is too early yet to tell the exact amount of damage done.

"Some of the earlier varieties of strawberries were pretty well out in blossom," continued Mr. Palmer, "and these in low-lying sections along the lake were very seriously injured. The Glen Mary was a particularly heavy sufferer, being well out in bloom."

In the Clarkson neighborhood, Percy Hodgetts, head of the Ontario Fruit Branch, says that injury is confined only to those strawberries which were out in bloom at the beginning of the week. "At first," he says "we were much alarmed and thought the crop would be a total loss. However, on closer examination it was found that about 30 per cent. of the first cluster were injured on low ground, which will reduce the total crop in this section by about 10 per cent. Warmer weather is needed to give the bees a chance to work," concluded Mr. Hodgetts. Oakville and Burlington reports are about the same.

## ORANGES HERE ON JULY 12

Fifteen thousand people it is figured will be in GRIMSBY on July 12th when the Orangemen will celebrate the Battle of Boyne. Over forty lodges between Hamilton and the Falls between the two lakes are booked for the GRIMSBY demonstration along with the twenty-five lodges in Hamilton, which are making this town their celebration point.

On top of this there will be no doubt be hundreds and hundreds of outsiders present to witness the big parade which it is now figured will be close to three miles long and will have at the least calculation thirty bands in it.

The annual picnic of the Orange Orphanage Home at Picton is always held on this date and this year the twelve hundred orphans in this home will be brought to the Fruit Belt for the day.

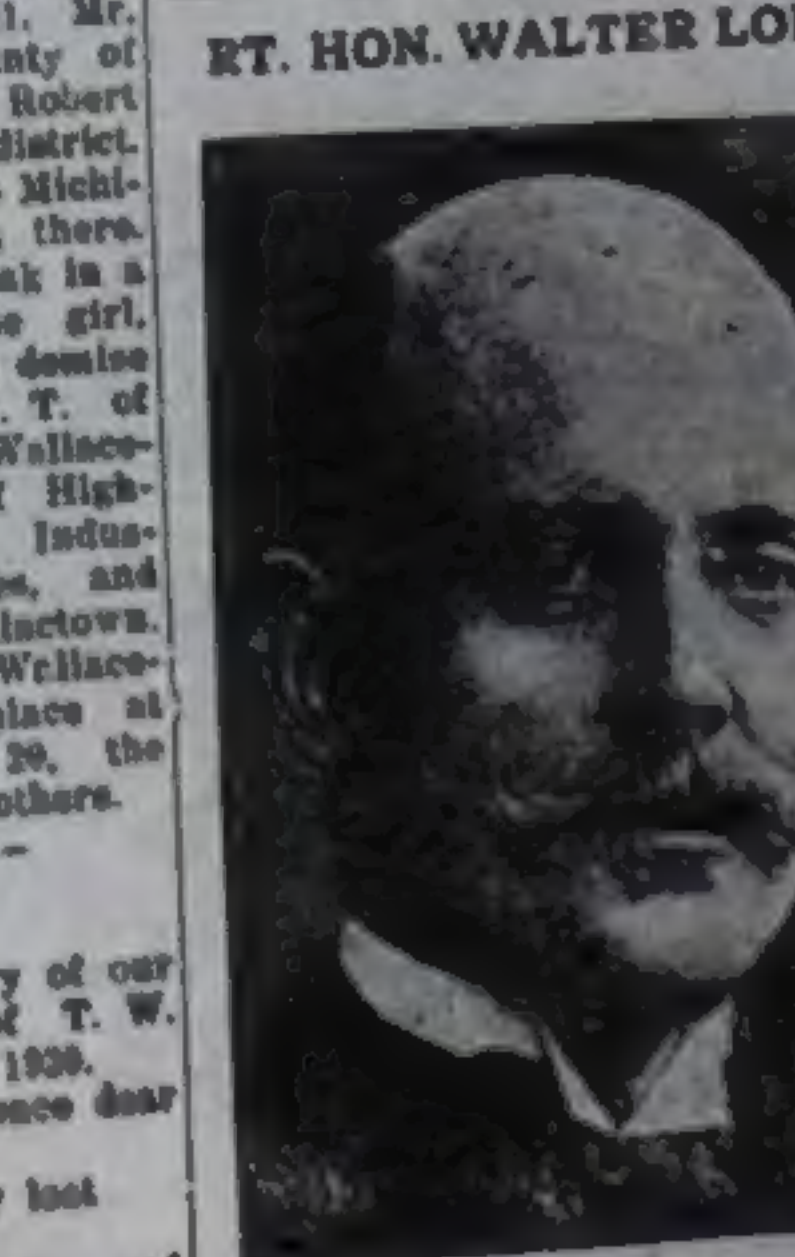

Plans are now under way for the decorating of the town and arrangements are being made to accommodate the thousands of people who will be here with meals.

## TO ESTABLISH RETAIL MARKET

Efforts are being made by Manager Mahony and Sales Manager Carpenter of the Niagara Peninsula Growers to establish a retail market for fruit on the Central Market in Hamilton. They appeared before the market and license committee of the Hamilton council last week and made the request. They would rent a space at the upper end of the market about thirty by thirty and fix it up for the retailing of the growers' product.

So far nothing has been done with their request for the establishing of a wholesale market, on the Hamilton market, made over a week ago.

**FACTS AND FANCIES**

By Frank Fairborn

History repeats itself.

We again have the peculiar spectacle, in Ontario, of two men being found guilty of and being sentenced to be hanged for the killing of a man, in which but only one was the chief actor.

On the fifth of March a man the by name of McFadden and a man by the name of Hotrum, in the City of Toronto, went out for the purpose of robbing stores, a game which they had been following up for some time, in spite of the best efforts of the police to discover the bandits who were holding Toronto in a reign of terror.

The store picked upon on this particular night was that of a druggist named Sabina.

The automobile in which the two robbers were riding, with two other men, was left standing on a side street and Hotrum and McFadden approached the store.

Up to this point all the evidence of both themselves and their companions, agree—but from this point on, the evidence of the principals disagree, each claiming that the other entered the store and killed Sabina by a shot from a revolver.

Hotrum was tried first, and McFadden gave evidence against him, stating that Hotrum had fired the shot while he (McFadden) remained at the door—Hotrum was found guilty but sentence was deferred.

The next week, McFadden was tried by a new judge and a new jury; Hotrum went into the witness stand and swore against McFadden claiming that he (McFadden) had remained at the door while Hotrum entered the store and fired the shot.

Both men fled to the automobile and got away.

The jury found McFadden guilty and the judge sentenced him to be hanged early in August.

A day or two later the other judge sentenced Hotrum to be hanged about the same time.

There was a previous case of this kind, several years ago in Toronto, when two men were hanged for the murder of one man, but in that case it was likely that both of the men were physically engaged in the killing—but in this case only one of the men was actually and physically engaged in the killing as the murdered man was killed by a lone revolver shot only a few moments after the pair had approached the store.

It may never be known who actually fired the shot that killed Sabina, but in my opinion both men are equally guilty—at the same time one of these men will go down to death with the feeling in his heart that he is innocent of firing that shot, although he will admit to himself that he was engaged in an unlawful act which resulted in bringing about the death of a fellow man.

I am pleased that both of these men were found guilty, because it will go a long way towards safeguarding the public, which has been living in more or less terror for the past year, of holding men and bandits who seemed to make their living and take delight in robbing, marauding and terrifying.

The lax administration of justice goes a long way towards encouraging crime and we have had two very flagrant cases in Ontario during the past year, when men either by the careless handling of guns, or some other effecting circumstance at the moment, caused them to send a bullet through a human being and kill them, and at the same time they escaped the punishment for the deed.

The one was in the case of Spracklin, who killed the hotelkeeper at Sandwich, and the other was the case of Hallam, an associate of Spracklin, who killed a woman in Toronto.

Both men were set at liberty, after trial, without any punishment, whatever.

The juryman who let these two shooters go free will have something to think about all of their lives, up to the very time that the undertaker has charge of each of them.

The case of the Spracklin killing has been hushed and rebuffed until it is necessary to do it with the rest further—but the case of Hallam is quite different.

The man was tried for the killing

of Mrs. Cross, and acquitted, and many people even do not know of the circumstances.

Hallam was fighting with his brother—the fight commenced upon the highway, fought downstairs, through a hallway and into a back room.

Here, the one brother snatched a revolver out of a bureau drawer and

**H. BULL SHOE STORE**

Phone 313 R 2

fired it—the bullet passed over the shoulder of the other brother, through a wall and entered the body of a woman sitting in the adjoining room—the woman is now in her grave and Hallam has been found not guilty of any crime.

Toronto "Saturday Night" in keen cutting sarcasm of the jury's action in this case says that "Mrs. Cross was very foolish to get in the way of that bullet"—but Toronto "Saturday Night" also points out that Hallam was a pupil of Spracklin, that he got his gun from Spracklin, that he had been trained in the use of a gun by Spracklin, and that he, like Spracklin, caused the death of a human being by the handling of his gun, and got away with it without punishment.

So we have the peculiar circumstance in Ontario, at the present time, of one man lying in jail (either McFadden or Hotrum) who is sentenced to death for killing a man he did not kill—and two men who each did kill the party at the other end of the bullet line, and both going free.

The law, as I understand it, is that if a man commits any act which in itself is a felony and is the cause of another person's death, he is guilty of murder.

Now, I make the claim that the drawing of a revolver during a fight and the firing of that revolver during the fight was a felony or at the very least a breach of the law—and by this act the death of Mrs. Cross was caused.

And while I would not go so far as to say that Hallam should have been convicted for murder, I would distinctly and positively say that he merited at least a five year sentence.

Spracklin's case is somewhat different—he did not fire through a wall unconscious of who was on the other side of it—he fired straight at a man, of course with intent to kill, as he claimed, he saw a look in the other man's eyes which told him that the other man intended to kill him.

Along this line we still have another case—that of the Garfield Brothers, who killed the man in Woodstock.

One is sentenced to be hanged, and the other one escapes the gallows although both were involved in exactly the same manner as Hotrum and McFadden, at the time of the murder.

There was this difference, however, that one of the brothers confessed that although he was in the store doing his share of the robbing, he had his back turned when his brother fired the shot that killed the proprietor.

Supposing that the other brother had confessed also and stated that he was fired the shot that killed the proprietor—each man confessing that the other had fired the shot.

The only trouble with Hotrum and McFadden was that they both were a little late in confessing—they waited until they reached the trial court and each of them confessed that he was on the scene of the robbery and killing, but that the other had fired the fatal shot.

## Local Items Of Interest

Board of Education meets next Wednesday night.

Mrs. Jaa. A. Livingston spent the holiday in Greenore.

Several of our local sports attended the trotting races in Galt on the holiday.

Dance with the War Vets Friday night, at the GRIMSBY Beach Pavilion.

"Jimmy" Hewitt the Mayor of Elyria, O., in raising his subscription to the INDEPENDENT says "I wish in the Old Home town for the Reunion to advise you that we expect to be in the Old Home town for the Reunion in August."

Sunday's rain was worth thousands of dollars to the fruit growers.

Lloyd Marhat of St. Thomas, was home over the week-end.

F. E. Russ has greatly improved the appearance of his block next to Moore's Theatre by a coat of paint.

Next Wednesday is June 1st, the opening day of the month of brides and roses.

Steve Robinson has returned to the Beach from Texas and opened his Fish Pond and Vernon's Ginger Ale stand for the season.

Our Coffee sales are growing, there's a reason. QUALITY—That's the reason. 65c lb. at the Quality Store. A. J. Esser.

The holiday passed off quietly in town, the opening games in the Soft Ball league being the only attraction to keep the citizens at home.

W. B. Muir of Hartney, Man. writes THE INDEPENDENT to the effect that he intends coming home for the Old Boys Reunion in August.

Our Princess Tea is a black Ceylon Tea of unexcelled Quality, 50c lb. If you are looking for a good Tea try this one at the Quality Store, A. J. Esser.

The growing popularity of Templeton's Rheumatic Capsules for rheumatism, neuralgia, lumbago, etc., and RAE-MAH for asthma, has placed these remedies among the "best sellers." For sale by Stewart Drug Co.

At the annual meeting of the Canadian Club in Hamilton on Friday, May 20 David F. Allan of GRIMSBY, John P. Bridgman of Winona, W. F. W. Fisher of Burlington were elected as members of the trustee board. Mr. Allan has been on the Board for a number of years.

The GRIMSBY Boy Scouts with their Band will go to Hamilton on Friday morning to take part in the big reception being held there for the Duke and Duchess of Devonshire. Scoutmaster Summers and his Pyramid Building Class will stage their performance for their Excellencies.

A field day for beekeepers will be held on the farm of J. L. Byer, one mile east of Hinthbrook village on Saturday, May 28th, at 1 p.m. under the auspices of the Ontario Department of Agriculture and the County Beekeepers' Association. The object of the Field Day is to discuss the best methods of management in a practical way. Everybody is invited.

Lower prices are the order of the day and there is not the slightest doubt but what our prices are the lowest. Blue worsteds down, and fine, down, down, down, and we have put our prices down much lower than the drop in materials warrant. We have some very smart English woollens we will make to measure at \$22.00. Won't you come in and let us show you our goods? The keenest buyers who "look around" finally buy here. In justice to yourself see our goods. Union made. Farrar Clothing Mfr., 5 Market Square, Hamilton.

Traffic over the Highway on the holiday was tremendous.

Miss Velma Devine of Hamilton, is spending a few days with Miss Lilah Kidd.

Mr. and Mrs. Elston Tye were guests of Mrs. S. B. Bradley over the holiday.

Mr. Harold Kemping has sold his Ford car and replaced it with a Chevrolet of late model.

Mr. Wheeler of Hamilton, has accepted a position in GRIMSBY as Manager of Burgoyne's Grocery.

The card party to be given in the Parish Hall on May 26th has been postponed until June 2nd.

Mrs. Schwartz and Mrs. Fawcett of Wilmington, Del., spent the week-end with J. L. and Mrs. Snyder, Robinson street.

Mr. J. A. M. Livingston, accompanied by Miss Lilah Kidd and Miss Velma Devine, her guest, spent the holiday in Welland with Major J. R. and Lieut. H. J. Reilly.

David Hunter local manager of the Niagara Peninsula Growers Ltd., accompanied by Mrs. Hunter is on a motoring trip through eastern Ontario and Quebec in the interests of the company.

Roy C. Calder, B. A., son of Mr. and Mrs. W. B. Calder, has completed his studies at Osgoode Hall and is now a full fledged Barrister-at-law. He will have offices in his father's office temporarily.

Dr. W. H. and Mrs. Cline of GRIMSBY East, attended the commencement exercises at McMaster University last week. Their daughter, Miss Helen was among the graduates.

The dates for the annual Summer School, which for a number of years has been held at Lake Lodge by the Presbyterian Church are from July 2nd to July 12th. The School has now become a co-operative school and is conducted by and for all denominations.

Charles and Mrs. Farrell of Dundalk, were home over the holiday. Misses Millie Jenkins, Letty Whit, Winnifred Seaman, Gordon Church and Earle Jenkins of Toronto; Miss Grace of Hamilton, and Miss Eva Seaman of St. Catharines, were among the holiday guests of Mrs. Seaman, Robinson Street South.

The piano recital in Moore's Theatre on Thursday night last, given by the pupils of Miss Pearl Brooks and assisted by Miss Mildred Page and Mr. Vernon Carey, was very largely attended, the house being packed full. The excellent programme rendered was highly appreciated by the audience. The work of Miss Brooks' pupils was very fine and much appreciated.

The Rev. Wm. Cooper, the recently inducted Minister of the Beamsville Presbyterian Church will conduct the Pre-Communion Service in St. Johns Church on Friday evening of the week-end.

All members are urged to attend. Friends of other churches will be welcomed. The usual offering for the Session Fund will be taken.

## MOORESTHEATRE

### ATTRACTIONS

TO-NIGHT, Wed. May 25—Annette Kellerman in "What Women Love", Pathe and Pictorial Review.

Sat. May 28—"The Woman God Sent" featuring Zena Keefe, a Pathe and Comedy.

Wed. June 1—"The Jack Knife Man" by King Vidor and a Pathe. No Matinee Saturday.

### O'LOUGHLIN-GARDNER

On Saturday afternoon at 2:30 the home of Mr. and Mrs. W. A. Gardner, Yates Street, was the scene of a very pretty wedding when their second daughter, Adah Muriel, became the bride of Mr. Albert Earl O'Loughlin, only son of Sheriff and Mrs. O'Loughlin. The bride, who was given away by her father, was attired in ivory satin, embroidered in pearls and hand-some bridal veil of Carrick Macraes lace. She carried a bouquet of Sweetheart and Sunset roses. Her only attendant was Miss Gladys Ansell, who wore a charming frock of mauve organdie, large picture hat and carried a shower bouquet. Mr. J. D. Dickenson, of Toronto, acted as best man. The wedding march was played by Mrs. W. A. Stevens, a sister of the bride. Rev. Dr. Martin performed the ceremony, which took place under a lovely arch of bridal wreath. After the wedding breakfast Mr. and Mrs. O'Loughlin left on a short wedding trip, the bride travelling in a smart navy blue suit, small blue hat trimmed with grey and grey shoes and stockings. Among the out of town guests were: Mr. and Mrs. George Merrick and son of Toronto; Mr. Helwig of Niagara Falls; Miss Alice Peppier, of Toronto; Mrs. Gordon McGhie, Montreal; Miss Kate Baxter and Mr. and Mrs. Carl Moyer of Niagara Falls.—St. Catharines Standard.

Inside a new hand bag for women is a mirror and a tiny dry battery fed electric lamp, which is automatically switched on when the bag is opened.

The Italian city of Milan has changed from gas street lighting to electricity, generating its current by Alpine waterfalls, nearly 100 miles away.

Patents have been granted a Saint Louis inventor of an electric alarm that sounds when the rain begins to fall in windows left open for ventilation.

## In The Churches

First Mass—8.45 a.m.  
Second Mass—10.45 a.m.

### ST. JOHN'S PRESBYTERIAN

Friday, May 27, 8 p.m.

Pre-Communion Service conducted by Rev. Wm. Cooper, B. A., Beamsville—Reception new members.

### Sunday, May 29

11 a.m.—Holy Communion.  
7 p.m.—Fifth of the series of Sermons on John 21. Subject: "Christ Among the Common Things of Life."

### SWAT THE FLY

HERE is a . . .  
HOUSE fly . . .  
DO not kill it . . .  
IF you do . . .  
IT will not be . . .  
ABLE to carry germs . . .  
AND there will not be . . .  
NEARLY so much disease . . .  
IF you kill it . . .  
IT will not be able . . .  
TO go out to the garbage . . .  
AND lay 150 eggs . . .  
WHICH will produce . . .  
ONE hundred and fifty flies . . .  
WHICH will produce . . .  
TEN thousand flies . . .  
WHICH will give us . . .  
ONE and one half . . .  
MILLION flies . . .  
AND then we will get . . .  
A hundred million . . .  
THIS will all happen . . .  
IN only six weeks . . .  
SO you see that if . . .  
YOU destroy the . . .  
PRETTY little fly . . .  
DISEASE and makes . . .  
EVERYBODY somewhat ill . . .  
AND kills lots of people . . .  
WHO don't want to die . . .  
YOU will destroy . . .  
MILLIONS of . . .  
FUTURE flies and . . .  
THERE will not be . . .  
NEARLY so much disease . . .  
AND the doctors . . .  
WILL have to live . . .  
ON their accumulated wealth . . .  
WHICH would be a . . .  
GREAT hardship . . .  
WE like to see . . .  
FLIES in the butter . . .  
AND in the milk . . .  
AND the soup . . .  
ESPECIALLY when they . . .  
HAVE just come . . .  
FROM the garbage can . . .  
DO not let anyone . . .  
KILL the flies about . . .  
THE house in Spring . . .  
IT is good practice . . .  
BUT it is more unwise . . .  
TO let them live . . .  
AND kill . . .  
YOUR rich uncle . . .  
WHO hates flies . . .  
AND who will leave . . .  
YOU his money . . .  
IF the flies do not . . .  
GIVE you typhoid . . .  
OR some other disease . . .  
AND kill you first . . .  
TO this tale . . .  
THERE is a moral . . .  
WHICH is: . . .  
A FLY killed now . . .  
is worth a million . . .  
KILLED IN JUNE . . .

LOST—On Monday, May 17, at Parish Hall, wrist watch with name on back. Reward. M. S. Nelles, phone 116, Grimsby.

## DO YOU LIKE MUSHROOMS?

Mushroom soup—Clean half a lb. of mushrooms and chop them fine. Add them to a quart of stock and simmer for twenty minutes. Then rub through a fine wire sieve. Boil a quarter of a cup of potatoes in a cup of water half an hour and add to the soup. Season with salt and pepper, and at the last add a cup of cream stirred up with the yolks of two eggs.

Deviled mushrooms—Butter the inside of little paper cases and put a thin slice of lemon in the bottom of each. Nearly fill them with minced mushrooms, seasoned with lemon juice, pepper, paprika and salt. Spread a thin layer of deviled chicken mixed with the yolk of egg over the top of each case and bake for fifteen minutes. Put a teaspoon of thick mayonnaise on the top of each and serve at once.

Bacon and Mushroom Pie—Put layers of thin bacon alternately with layers of mushroom in a buttered baking dish, for two or three layers of each. Then cover with a layer of mashed potatoes, well seasoned. Add two more layers of bacon and mushrooms and then top with a layer of potatoes. Scatter with bits of butter and bake for half an hour in a moderate oven, covered. Then remove the cover, brown and serve.

Tomato Sauce—Wash, trim and cut eight medium sized, smooth tomatoes. Cut a hole in the stem and scoop out the insides. Chop one onion fine, add to it a tablespoon of butter and allow to simmer slowly in a saucepan. When colored a deep yellow, add six ounces of bread crumbs which have been prepared by first washing in water and then draining nearly dry. Also add one dozen chopped mushrooms, one tablespoon of chopped parsley, a pinch of salt, one peppercorn, a dash of cayenne and four tablespoons of tomato soup. Mix all thoroughly. Then fill the tomatoes and sprinkle with bread crumbs and melted butter. Bake in a moderate oven until brown and serve with sauce made as follows:

Tomato Sauce—Put half a teaspoon of butter in a saucepan with an onion, a carrot, and half clove of garlic, all cut fine. Simmer gently for ten minutes, then stir in a tablespoon of flour. Add half pint of stewed tomatoes and half a pint of stock. Boil gently for thirty minutes, season and strain.

Mrs. Currie, discoverer of radium and one of the foremost women scientists in the world, will visit the country in May and will be accompanied by her daughter Irene, also scientist.

## ANSWER ENUMERATORS

Don't slam the door in the face of the enumerator when he comes around next month, or tell him to mind his own business. The statistics law makes it compulsory to supply him with all the information he requires, even if the questions are a little personal, such as a lady's age, and if he is unable to get this information he is instructed to report to the chief commissioner, who will use his own judgment as to whether or not he will enter a prosecution against the parties failing to give information.

## The Details Required

The ordinary form (No. 1) which the enumerator will fill in at every home in the town has some 34 details to be filled in as follows:

- 1-5 Names of each person in the house, street, town.
- 6 Is the house owned or rented.
- 7 If rented, what rent.
- 8 Class of house.
- 9 Materials of construction.
- 10 Rooms occupied by family.
- 11 Relationship to head of family.
- 12 Sex.
- 13 Single or married.
- 14 Age last birthday.
- 15 Where person born.
- 16 Where father born.
- 17 Where mother born.
- 18 If born outside of Canada, year of immigration.
- 19 If born a foreigner, year of naturalization.
- 20 Nationality.
- 21 Racial or tribal origin.
- 22 Can speak English.
- 23 Can speak French.
- 24 Can speak any other language.
- 25 Religious denomination.
- 26 Can read.
- 27 Can write.
- 28 Months at school since September 1890 (children).
- 29 Chief occupation or trade.
- 30 Employer, employe working on own account.
- 31 Total earnings in past 12 months.
- 32 If out of work on June 1st, 1921.
- 33 Number of weeks unemployed in the past twelve months.
- 34 Number of weeks unemployed from June 1st, 1920 because of illness.

The enumerators have got to go into every house in GRIMSBY and get this information. If boards are not at home at the time of calling in lodging houses or hotels special forms will be left for them to fill in. In hotels transient guests will not be taken.

The principle is simply: where a man sleeps there will his census be taken. People in halls, penitentiaries, hospitals or other institutions of any kind will be registered as of such address.

The census commissioners are very insistent that people should understand that facts or statistics given to the enumerators may not be used for any other purpose. Positive assurance may be demanded on this point by people being registered. The desire or the country is to have the census accurate to the last degree. If a man's statement of income on the census form varies from that given on the income tax forms he need not be afraid of fine or extra levy; the finance department at Ottawa will not have access to the census photos.

## BOY SCOUT NEWS AND ORDERS

PARADES—There were 34 all ranks of the Troops and Wolf Cub Pack, on parade on Friday night last, for inspection by Lieut.-Col. E. O. Hooper, D. S. O., M. C., etc., of Hamilton. The Scouts carried themselves extremely well and in the march past was remarked upon by the inspecting officer and several experienced onlookers. During the inspection, Col. Hooper spoke to several Scouts and asked them as to their interest, service and enjoyment they had in the Movement and received very enthusiastic replies. The inspecting officer was very gratified, during his inspection to notice the number of long-service Scouts, and the war-service Scouts and Officers connected with the Troops. After inspection, Col. Hooper accompanied by the District Scoutmaster, and the local President, Mr. Hamilton Fleming, took the salute at the head of the parade ground. Immediately after the march past Physical Culture class an opportunity of displaying their famous pyramid building; which was heartily applauded by the audience. Lieut.-Col. Hooper asked that the parade be formed in a hollow square, when he addressed them, as a whole, on the splendid showing they made; and the Officers and Patrol Leaders on the splendid appearance and steadiness of the Scouts in their command. He especially complimented the Band Troop on its excellent work—and commended the whole to continue in the Movement, they were doing for the Movement, generally. Mr. Hamilton Fleming, President of the Local Association, also spoke a few words, and expressed the thanks of the Officers and Scouts to Col. Hooper and the attitude of the Community to the Officers who are so energetic in their work for the boys. Heartily cheers were called for and rendered to Lieut.-Col. Hooper.

HAMILTON PARADE—The Troops and Wolf Cub Pack will parade to Hamilton on Friday morning, pending permission from the parents of the boys, and the Board of Education, that they might miss school, and full particulars of the time, etc., will be issued by bulletin board, as soon as the proper arrangements can be made. This parade, for the purpose of joining the Hamilton Troops in a monster review by the Governor General, on Friday morning. Dress—Full Scout uniform with staves; Band Troop with instruments.

STRENGTH—7 48c. Ward, G. W. S., No. 5 Owl Patrol, No. 3 Troop in struck off the strength, as of 26-5-21, on transfer to Beamsville Troop. 69 Sc. Coulson, F., is taken on the strength as of 26-5-21; 89 Sc. Farewell, K., Mr. Leslie J. Farrell, 111 Sc. Moore, H., are taken on the strength as of 26-5-21; 159 Dr. Fisher, J., Drum Patrol, No. 3 Band Troop in struck off the strength as of 26-5-21 for refusal to conform to the Scout Law.

PROMOTIONS—49 Sc. Coulson, F., 57 P.L. Hill, L., 126 Sc. Tester, K., are promoted to the Eagle Band, No. 3 Band Troop; 89 Sc. Farewell, K., to No. 4 Patrol, No. 1 Troop; Mr. Leslie J. Farrell, to Headquarters; 111 Sc. Moore, H., to No. 7 Patrol, No. 2 Troop.

TESTS—125 Es. Dockstader, O., has passed Second Class, Pathfinder, Cyclist, Bugler—tests and been awarded the badges.

THE PUBLIC—had a splendid exemplification of the work being done in the Movement, on Friday night last; and it is hoped that such an exhibition will increase the interest in the Boy Scouts in this District. We would bespeak for all the Scouts who wish to attend the huge Scouts Rally, in Hamilton, for review by the Governor General, permission to be absent from school on that day, to attend this parade. The Scouts will all be looked after by the very efficient Officers who will be in command of the party—and parents need not fear for the conduct and safety of the boys while advertising GRIMSBY in this wonderful way.

J. A. M. LIVINGSTON, District Scoutmaster.

## SIGNALS

When Tessie, the farmer's fair daughter, went out for a stroll by the track, She always averted a slaughter By waving the valour back. When the river had burst from its channel And ripped up the bridge like a rag, With a blush as red as its damsel, She wigwagged her postilion flag.

When Janet beheld the damsel, With a smile on her face, With her senses knocked utterly sore The poor lad had been kicked by a cow.

With her back to the folks, she just tumbled, And a bandage appeared in her hand. And, of course, those Victorians tumbled That her undershirt furnished the band.

If Janet today goes a-ramble She will bandage no blood-speckled wreck.

For you're perfectly safe if you gamble She can spare but the fur round her neck. And though Tessie may nigh throw a spasm, Not a soul will her signalling save; The express must dash into the chasm—For Tessie has nothing to wave.

To pump water out of places into which it leaks there has been invented an electric pump controlled by a float.

A California inventor has patented a front wheel brake for automobiles that can be used without interfering with the operation of a car in any way.

## DOMINION LIGHT

THE CANADIAN-MADE LIGHTING PLANT FOR  
RURAL HOMES, FARMS, ETC.

Manufactured in Brantford, Canada, by

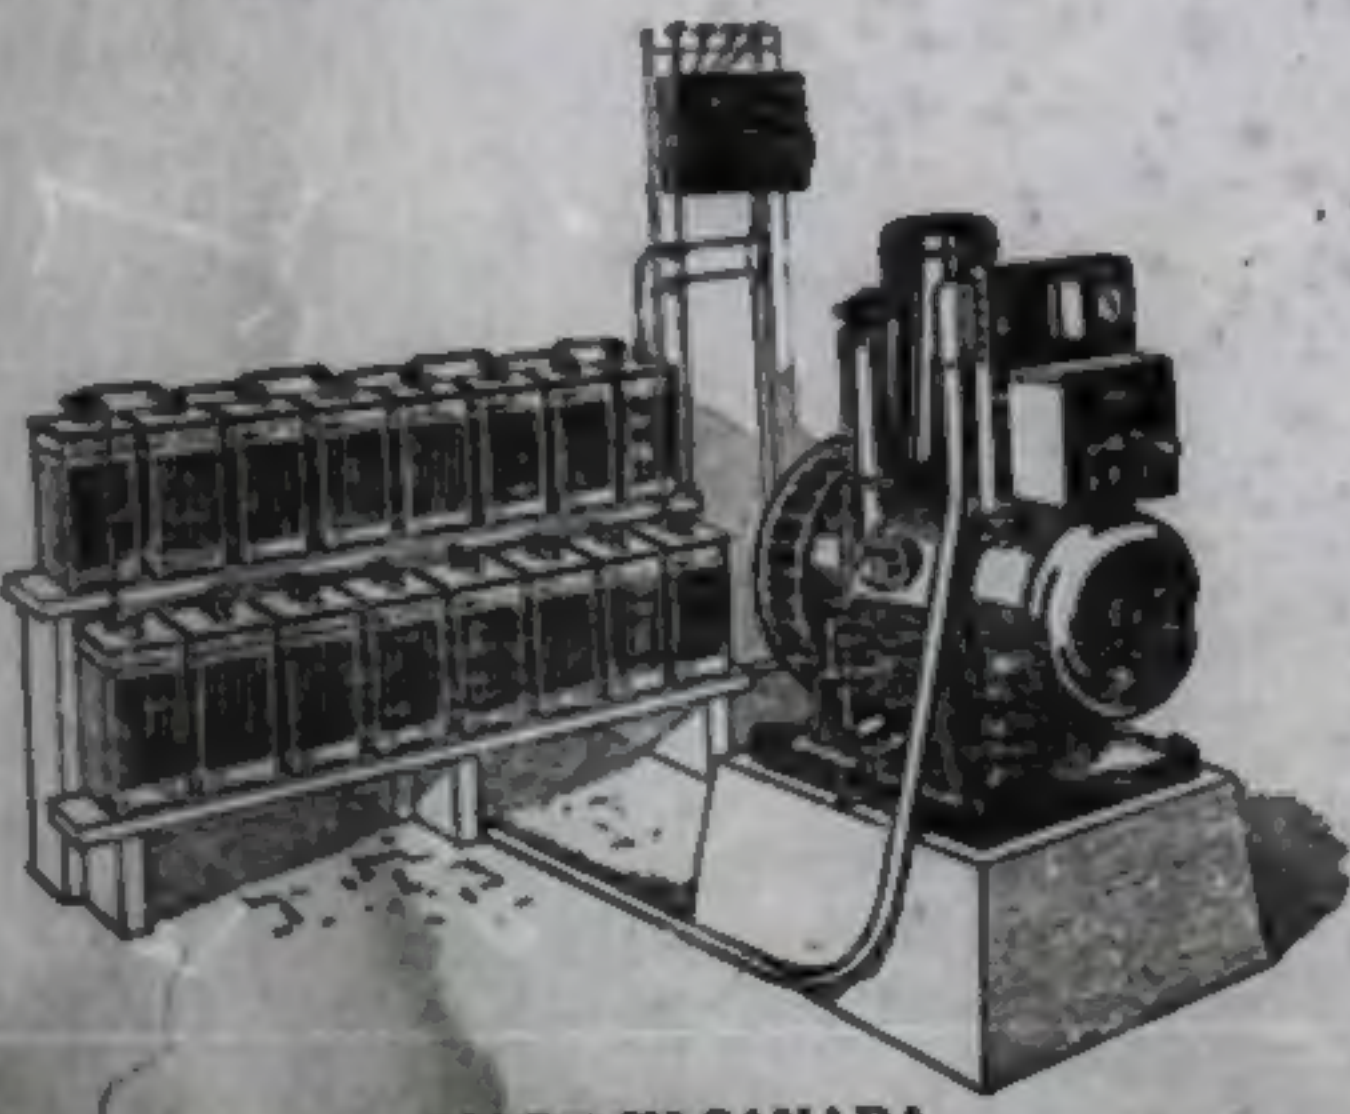

**Dominion Steel Products Company, Limited**

Every part of DOMINION LIGHT Plants is the best obtainable. Quality comes first, price last. That is why a DOMINION LIGHT Plant is 100 per cent reliable and efficient. Dominion quality means that there is little chance of your having to go back to candle or lamp light while your plant may require repairs. The upkeep expense is cut to a minimum. Low fuel consumption, freedom from repair needs, and ability to deliver continuous power are what count. Lighting worries and repairs are eliminated by Dominion quality. A Dominion plant will deliver continuous service for 24 hours per day and 365 days per year. They are MADE RIGHT AT HOME and REQUIRE ONLY A SMALL AMOUNT OF COMMON COAL-OIL TO RUN THEM. IF YOU WANT THE BEST, BUY A DOMINION LIGHT SET.

### POTATO SCAB AND HOW TO DEAL WITH IT

Common Scab as the name by which it is known implies, is one of the most common troubles affecting potatoes. Although the occurrence of scab does not, as a rule, affect the yield, it detracts considerably from the value of tubers for both seed and commercial purposes. The seed value is affected owing to the fact that the eyes of badly scabbed tubers are likely to be injured thereby, and the unsightliness of scabbed tubers combined with the considerable trouble and waste entailed in preparing them for the table, renders them undesirable for domestic use.

A discouraging experience frequently encountered by potato growers is that, notwithstanding the use of perfectly clean and sound tubers for seed, a considerable percentage of scabbed potatoes is in evidence at harvest time. This is due to the fact that the scab organism occurs naturally in the soil, particularly if alkalinity has been increased by the application of wood ashes, lime, fresh manure, or other substances of an alkaline nature. As an instance, it frequently occurs that where potatoes are planted on land which has recently been cleared and burnt over, or where they are planted immediately after an application to the land of fresh barnyard manure, the result is a scabbed crop. On the other hand, it has been found that the ploughing under of green crops, such as clover, has a tendency to decrease the liability of injury from the disease.

The potato crop should be included in a rotation so planned as to allow for the ploughing under of clover or sod during the fall before planting potatoes. This practice, combined with that of seed disinfection by treatment with formaldehyde or corrosive sublimate, while not providing a guarantee that a crop of potatoes will be free from scab, constitutes a reasonable safeguard against its occurrence.

The following points should be particularly borne in mind at planting time:—

- (1) Plant only clean tubers
- (2) Disinfect seed by immersing it for two hours in a solution of commercial formalin—1 pound to 40 gallons of water, or
- (3) For 2 hours in a solution of corrosive sublimate (bichloride of mercury)—2 ounces to 25 gallons of water.
- (4) Use only wooden or earthenware vessels for corrosive sublimate.
- (5) Corrosive sublimate is intensely poisonous. All tubers treated with this and left over after planting is completed should be immediately destroyed.

Powdery Scab differs considerably in appearance from Common Scab, and usually more uniform in size and shape. It is not so common or widespread as Common Scab, and usually occurs only in damp and cool seasons.

### RECOGNIZING BROOD DISEASES OF BEES

(Experimental Farms Note)

Identification is the first step in the control and eradication of the brood diseases of bees. A wrong diagnosis, especially where American foul brood is concerned, may result in spreading instead of controlling the disease.

There are three diseases affecting the brood of bees and usually the main characters are sufficient to determine which disease is present. To be able to detect any unnatural condition in the brood it is necessary to know the appearance of healthy brood.

The healthy larva, up to the time it is capped over, lies curled up in the base of the cell and is of a glaucous pearly white color. As soon as it is capped over it assumes a lengthwise position in the cell preparatory to transformation to a pupa. Cappings over healthy brood are uniform in convexity and color; the latter, however, may vary from yellow to dark brown according to the age of the comb.

Brood affected with American foul brood usually dies after it is sealed over. The cappings covering dead brood are darker and more convex than those covering healthy brood. These cappings may also be perforated. The dead larva or pupa will be stretched out along the lower wall of the cell.

### IDEAL KING

(20452)  
Enrollment No. 5681. Form 1 Certificate.  
Expires Dec. 31, 1921.

This wonderfully bred Clydesdale Stallion will stand at his own stable near Vinemount for the season of 1921.

This horse is a well set up type, weighs 1700 pounds, dark brown, kind disposition; sure footed, and a most desirable horse in every way.

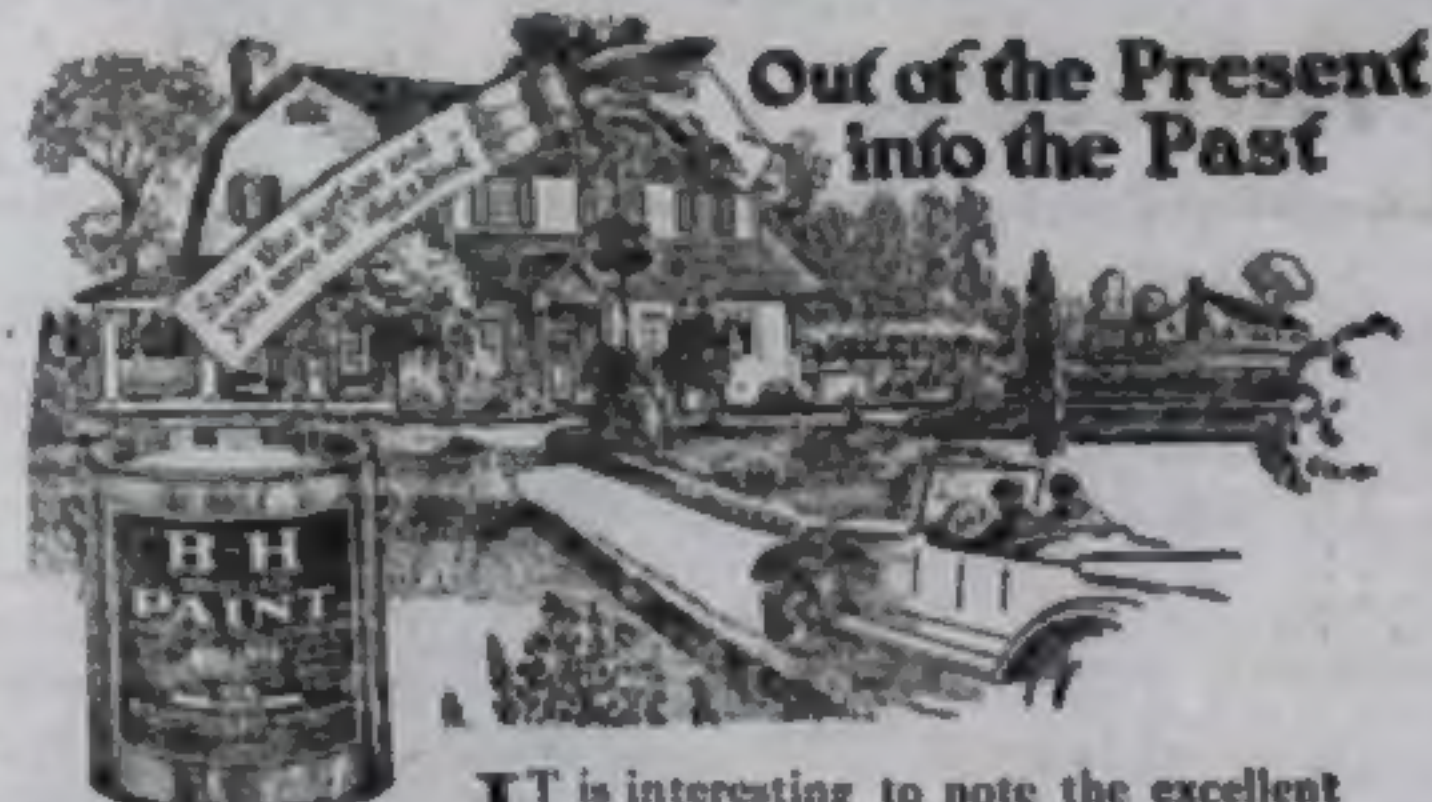

His sire, King Everlie, was imported from Scotland in 1911, and all horse breeders know of his splendid record.

Ideal King's dam was Ideal Queen, by Imported Harvester, out of Ideal Princess (imported), and there is no need to go further into their breeding.

Terms—To insure \$12, with usual return privilege.

### Out of the Present into the Past

It is interesting to note the excellent preservation of some old family residences. So well do they "fit into the picture" that except for their architecture one might almost imagine them the product of the present age, yet in reality they stand as silent tributes to the wise precaution against decay and deterioration on the part of a former generation.

Any house that is worth building should also be worthy of preservation by means of paint. The maximum of protection is found in

## B-H "ENGLISH" PAINT

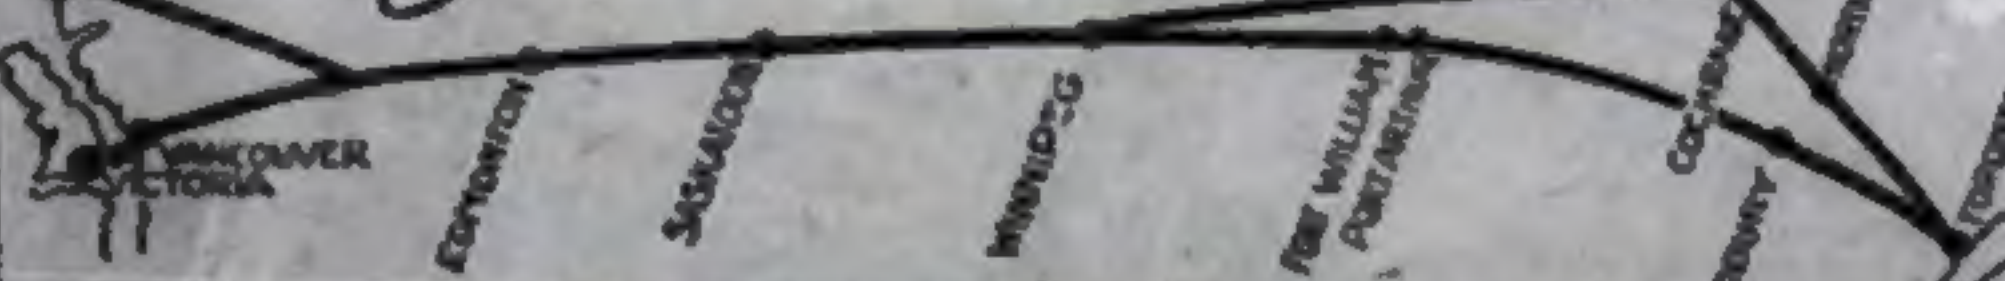

The formula (70% Brandram's Genuine B.B. White Lead and 30% Pure White Zinc) produces a paint with a fine, smooth surface that does not crack, chip or peel and a surface protecting film that will defy the elements.

Investigate B-H "English" paint—you'll find most Canadians use it because of its economy and lasting qualities. A trial will make you a convinced adherent to this brand that goes so far and lasts so long.

## MOTOR DIGEST

COMPLETE OUTFIT IN YOUR TOOL BOX IS NEEDED

Touring Motorist Should Take Every Precaution Before Starting on Long Trip

One of the best ways to "doll up" your car at this time in anticipation of a series of enjoyable tours this spring is to equip it for every reasonable emergency that may arise. While "dolling up" may be interpreted to apply more particularly to fittings that appeal rather to the eye than to the utility of the motorist, any veteran automobile tourist will tell you that "it's the things you don't see and don't think of that make motoring a real joy-ride or a slide into gloom."

While "dolling up" your car, don't fail to consider the tool box. Here should be the useful articles that every car should carry to provide against emergencies that arise sooner or later with the most careful of drivers.

Among the tire repair tools there should be a wrench for rapidly removing the nuts which hold the tire in place. One should also have a three-in-one valve tool in case the threads on the valve become battered. A box of new plungers is also desirable. A tow rope is indispensable, and it should be long enough to be of real use. No one anticipates being towed, but a tow rope may get you out of a rut, or a hole when nothing else would. Besides, you may be disposed to tow some one else.

There are many other things needed in a car by the driver who is going on a tour. One of these is a set of electric light bulbs of the right voltage and candle power for the particular car. These may be bought in sets boxed at any supply store. At the same time, if the car has fuses in the electric system, a set of fuses should be carried. A small ball of stout twine is likewise handy.

Here are some of the other things that should be carried.

A set of ignition brushes boxed and labelled; several extra spark plugs, clean and adjusted and in a carrier; tire pressure gauge; squirt can of oil, with a flexible nozzle if there are many oil holes in out of the way corners; hydrometer for testing battery; ammeter or trouble light for testing electric current; a box each of assorted nuts, assorted cotter pins, assorted cap screws and assorted washers; a spool of copper wire; several lengths of different sized brass spring wire; bag of clean waste or rags, and if you like clean hands, a box of the new kind of soap paste which can be used without water.

All of the things enumerated will stow in the tool box or under the seat, if properly wrapped, labelled, will not be needed often but when you need a thing while touring, you need it badly.

### BEWARE THE TIRE-GRINDER

"Plink! plink! plink!" Hear those little raindrops beginning to make their music on the windshield? It's old man Wet Weather ringing his bells on one of his periodical rounds of tire-grinding.

Strange old gent he is, because if you don't take the time to halt and put on your skid chains he proceeds to business with you, anyway. Figuring out the dollars he grinds from bare tires in the course of a year would tax the strength of an adding machine, for he seems to have a regular bunch of customers who seem willing to take a chance with his grinding and in every opportunity. Nothing delights him more than to see rear wheels spinning around at a dizzy rate in their efforts to get a tire-hold on the slippery pavement that his helpers have prepared for his benefit.

### DON'T SPIN WHEELS TO EXTRICATE YOUR CAR

Once a car is stuck in sand it is useless to try to get it out by spinning the rear wheels. If no progress is made on the first trial, shift to neutral and get busy at the rear wheels. Boards, if they are obtainable, are excellent in allowing the rear wheels to grip. The boards should be placed at the rear of the tires and the car reversed out of the difficulty.

In approaching a sandy spot it is best to speed up a little, holding the steering wheel firmly, so as to be prepared for an emergency. In sand the steering wheels are a little hard to control.

Muddy roads are negotiated in the same way as sandy ones, though usually tire chains will pull a car through mud that is not too deep.

### TIRE CONSERVATION IS VERY IMPORTANT

Shabby tires on a good looking car! Yet stand on any street corner today and count the number of patched up, dilapidated tires that are being used to the last mile. The cost of keeping these tires running for a few thousand miles would nearly pay for new ones. Mileage such as this comes high.

Tire conservation does not mean picking up a decent tire and putting it back into service at a big repair cost, just to save a little rubber left in the road. It means taking care of the tire from the first, so that it will be able to deliver all the mileage built into it by the maker.

### VALVE STEM GUIDE BUSHINGS

In engines not fitted with special valve stem guide Bushings excessive wear of the guide and consequently valve stem sideplay and oil leakage may be prevented by reaming the guide and fitting a bronze bushing. The bushing may be obtained already machined from any supply house. In reaming the valve should centre on the taper otherwise there will be a side-thrust against the bushing and it will wear eccentrically.

## High Average Mileage

Sometimes you find a tire that gives extraordinary mileage—one in a dozen perhaps. Whereas the average of mileage given by a dozen—or a hundred—Ames Holden "Auto-Shoes" will be as high as that given by the exceptional ordinary tire.

It's the high average that counts—that cuts the cost of miles—that makes it worth while to get Ames Holden "Auto-Shoes" instead of ordinary tires.

Soft Ball League Stops Telling What It Can Do and Starts in to Do  
Tackeaters Eat Metal and Crafters Lose by Small Margin—  
Some Game Considering Weather, But Better Games Are Promised—  
Walker Takes Advantage of Reeve's Poor Delivery.

The baseball season for 1927 burst into being, full-panoplied, like Minerva emerging from the cracked brow of Jove, yesterday afternoon, at the school grounds, and 2,441 fans, drenched in one or two deeps of sunshine, a million and a half odd showers, and a whole lot of joy, declared themselves in on the inauguration ceremonies.

Simply at two-thirty Reeve Marsh stepped to the centre of the newly skinned diamond and in a few well chosen words officially opened the Municipal Soft Ball League for the season. "Hank" was not with the proper sport words for the occasion, so much so that he believed that he has been reading the Independent sporting page.

After a brief address he pitched the first ball of the year, with Ed Walker, of the Metal Craft team, at the bat, and lo and behold! he cracked the Reeve's first offering away out to right field.

As for the baseball feast offered by the Metal Craft and Tackeaters, which all the hungry fans ate up like lobster salad—well it was some game, but had the players been polar bears or seals probably the game would have been better; as it was the boys wallowed through the mud and rain for a full nine innings, with the Tackeaters coming out on top by a score of 12-10.

It was a fine scoring bee, this first game of "Jimmy" Farrell's circuit. Runs were manufactured in most every inning, mostly by substantial hitting, and more substantial errors, caused by the soggy-ness of the ball, and that is what the average fan enjoys—lots of hitting, lots of errors and lots of sliding to bases, and believe me, Bo, they sure did slide, for the ground was in the right shape for skidding.

It was an opener with "rain coats and umbrellas on," but nevertheless the fans enjoyed it, whether the players did or not.

Metal Craft went to bat first, but failed to score, but came back like pennant winners in the second inning and scored two runs; then they went on until the fourth, when they scored two more. They got one in the fifth, one in the sixth, one in the seventh, one in the eighth and one in the ninth. At one time in the last spasm they had the bases full, mostly on walks handed out by Fisher, but failed to grasp the opportunity offered and hit out a couple of long ones.

They played a downhill game all the way and went until the eighth, when they notched one tally. In the ninth they were roused in the sixth, but came back strong in the seventh for three more. In the eighth they managed to grab three more and that gave them a total of twelve and enough to win by a margin of two.

Old "Weiners" Walker was in the box for the Metal Craft and we are right here to tell you that when the hat weather comes the fat boy is going to be a bear cat, and there is no question or argument about that. Even the speedy Tackeaters admit that he is going to be a tough man to beat. His team this year looks like a "pip" and with Mickus and Bell in the line-up will be a most formidable nine for any team to face. Phipps, the most unlucky man that ever played baseball, is catching the fat boy, and if he has any kind of luck at all, and we hope he does have, they will be a mighty stiff battery. He caught a great game yesterday and we hope he continues to do so.

Chester Fisher, the Aeroplane Boy, was in the box for the Tackeaters, with "Bo" Farrell doing the receiving. Ches. pitched a fair kind of a game, in fact a better game than he has pitched in a long while. "Bo," behind the bat, was in his usual high class form, and looks like he will be a better catcher this year than last.

It was some game, if you consider the weather, but at the same time there are better games coming.

The other night I went to the movies—not to sleep—but to forget business—you know how it is—and the best thing about the picture—was the ending—but that was good.

Everyone—except the dead villain—was happy forever—and ever. The hero—and heroine—sat on the edge of the moon—and kissed—for a time record.

And the five years after group—showed more smiles—and happy—healthy children—with codies of sunshine—and not a cloud in sight—which is of course—as we would like it to be.

And as I came out—it occurred to me—that a lot was left unshown—in that ending. They didn't show—the bills of the grocer—the baker—the candlestick maker—they didn't show—the worries—the disappointments—the heart aches—the rough water—now and then—or any such articles—

Because—we can make our own private movies—of them—and when folks go to be amused—there are some truths—that they like to forget—and besides—it would make the picture too long—you know how it is.

But when you buy something—you want the whole picture—and the frame—you don't pay to be half told—and perhaps disappointed—that's the difference.

And when you buy printing—you don't want printing—that looks half done—and stubs its toe—you want printing—that goes over—the Jack Dempsey uppercut—

Listen—you don't like horse cars—or keroseene lamps—or slow trains—or last year's straw hat—do you?—Then you'd be an INDEPENDENT booster—like hundreds of others are—and it's the fastest growing family—in printlandom.

Better begin—to INDEPENDENT your printing troubles—so-day—by dropping a line to us—who are—The

INDEPENDENT—at Oak and Main Streets, GRIMSBY—where we make—the printing that perfects the business system.

High heels are designed to go in Massachusetts if the bill brought from the legislature by the Massachusetts osteopathic society becomes a law. The bill provides for the prohibition of the manufacture, sale and wearing of heels more than 1 1/4 inches in height.

THOMAS MARSHALL

Member Provincial Parliament for Lincoln, who has donated a Silver Cup to be battled for by the teams in the Fruit Belt League.

Thanks, "Tom."

## SPORT TITORIAL

A wise guy made the remark the other night that the Ponthill boys may be "sod-busters" but look out for them. Quite right. These same "sod-busters" will "bust" up more than one game before the season is over, and moreover do not be surprised if they "sod-bust" off with Tom Marshall's silverware.

"Pud" Bell is not long for the Fruit Belt League, if all reports emanating from the Beamsville district are true. "Pud" is a pitcher and according to the Beamsville Express struck out no less than twenty men in a game last night when Beamsville defeated the Westinghouse team of Hamilton 29-1. Once the big league scouts hear of this performance they will make Beamsville their camping ground.

"Too many rocks spoil the broth" is a trite but true saying that has been handed down from the long, long ago, but it applies just the same today as it did in the good old days.

In the Fruit Belt is the formation of a district soft ball league to be composed of Stoney Creek, Fruitland, Winoona, GRIMSBY and Beamsville. Here is a case where "Too many leagues will spoil them all," so far as GRIMSBY is concerned at any rate. GRIMSBY at the present time has in existence the Municipal Soft Ball League of teams and has a team entered in the Fruit Belt Baseball League. These two leagues are about as much as this town can support. The entry of a GRIMSBY team in the proposed new league is going to be the means of spoiling this town's chances of getting anywhere in it.

By the time the boys of the soft ball team play their two games a week in the Municipal League and a portion of them play one game a week in the Fruit Belt League besides working in a line practice for the hard ball team they will have their hands full without thinking of playing game in any other league. If GRIMSBY expects to even win one game the season in the Fruit Belt League the players have got to show a lot of jaw and put in a lot of hard practicing to do so, and will have no time to be monkeying around playing in a district soft ball league. GRIMSBY is pretty well set for a good season's sport and neither the players or the public will have the time or the inclination to be playing or watching games in a third league. The public has to provide the "do-re-mi" for all these leagues, so don't look for a gift horse in the mouth too much. If Winoona, Stoney Creek, Fruitland and Beamsville want to form a soft ball league, let them go to it that is their privilege, but let GRIMSBY players have their hands full now without even thinking of taking on any more.

GRIMSBY, ONTARIO

GRIMSBY OPENS FRUIT BELT LEAGUE  
AWAY FROM HOME ON JUNE FOURTH

If anybody thinks it is a pipe of a job to draw up a schedule for a four team league, get all the games in where they should be and at the same time satisfy every team they have another think coming, and incidentally can have the job.

At the meeting of the representatives of the teams from the Fruit Belt League in Beamsville on Thursday night last most of the two-hour session was consumed in trying to make the schedule work out right. It was some job but was finally accomplished.

The meeting was presided over by W.D. Fairbrother, President, and GRIMSBY, Beamsville and Ponthill were represented. Smithville delegates failed to show up.

Several changes were made in the rules drawn up at the last meeting. Under the new rules each team has until the fifteenth of June to register all its players and each team is allowed eighteen men instead of fifteen.

It was reported at the meeting that Thos. Marshall, M. P. F. for Lincoln had donated a beautiful silver cup for the league winners.

The schedule is a double one, and is in two sections. The winner of the first section to play off home and home games with the winner of the second section. If a third game is needed to settle the championship it is to be played on neutral grounds.

Under the schedule GRIMSBY opens the season away from home and closes it away from home.

Smithville team was also allowed to include the township of Gainsboro in its territory.

If enthusiasm is any criterion then of good roads.

## FRUIT BELT SCHEDULE

## First Section

June 4 Grimsby at Beamsville  
Smithville at Ponthill

Grimsby at Ponthill  
Aug. 6 Beamsville at Smithville  
Ponthill at Grimsby  
Aug. 13 Ponthill at Beamsville  
Aug. 20 Beamsville at Ponthill  
Grimsby at Smithville

Winners of each section play off for championship.

the Fruit Belt League is going to be a howling success. All the delegates at the meeting were full of pep and confident that the league would be a success. Each team reported that they intended to spare no effort or work in order to give the public a high grade brand of ball, both at home, and away from home.

Back in the days of the bicpoin, New Jersey was called "the mother of good roads."
